EDUCATION

Illinois Institute of technology Chicago, IL, United States	May 2026
Master of Science in Computer Science	GPA: 3.40/4.00
University of Mumbai Mumbai, India	May 2023
Bachelor of Engineering in Computer Engineering	GPA: 3.80/4.00

PROFESSIONAL EXPERIENCE

Software Developer Crayon Infotech Pvt Ltd., India	Aug 2023 – Jul 2024
Tech Stack: PHP CodeIgniter Laravel Python Git SQL/NOSQL PostgreSQL RESTful API Flask API Data Structures	
- Designed scalable software solutions, leveraging techniques to enhance performance by 30% and cut downtime by 15% - Developed robust APIs for seamless third-party integration, boosting functionality and enhancing the user experience - Collaborated with cross-functional teams to deploy 5+ applications, refining the codebase to ensure stability and bugs	
Blockchain Research Intern Lab Systems Pvt. Ltd., India	Jul 2022 – Feb 2023
Tech Stack: Blockchain Architecture Blockchain Node Hashing Solidity Smart Contracts Ganache IPFS	
- Gained expertise in cryptocurrency forensics using OSINT skills, training a team to develop a comprehensive solution - Managed a Bitcoin Node to support research initiatives, actively contributing to blockchain technology advancements - Trained a team of 12 professionals in blockchain technology, enhancing leadership capabilities and technical expertise	
Cloud Intern Amazon Web Services (SLRTCE), India	Jun 2022 – Jul 2022
Tech Stack: Cloud Computing Services EC2 S3 RDS CI/CD Pipeline Lambda	
- Completed training in AWS Cloud Services, focusing on secure cloud deployment with active filtering and monitoring - Delivered a capstone project demonstrating advanced cloud solutions and principles with scalable architecture on AWS	

PROJECTS

Time-Series Forecasting Tech Stack: TensorFlow/Keras, Facebook Prophet, StatsModels, Flask, React, Docker, GCP
- Built a Python-Flask pipeline to ingest GitHub data (issues, PRs, commits, branches, contributors, releases) from 2 years - Developed robust microservices for model training and forecasting with a React dashboard, containerized using Docker - Deployed on Google Cloud Run with automated CI/CD, improving system efficiency, scalability, and reliability by 40%
Visual Room Interfaces Tech Stack: Stable Diffusion 3.5 Large Turbo Model, Python, Influxdb, Sensors
- Developed a system using Stable Diffusion to create real-time visualization of environmental conditions using sensor data - Streamlined process of interpreting raw data for improving decision-making process, achieving 90% success in user study
Graphical Password Representation using Blockchain Tech Stack: Ethereum Blockchain, IPFS, Hardhat, React.js
- Constructed a blockchain solution that replaces traditional passwords by using smart contracts and IPFS integration - The solution enhances user authentication by decentralizing data storage, providing greater security and improved privacy
Pulse Detection through webcam Tech Stack: Python, OpenCV, Tkinter, NumPy, SciPy
- Implemented a Python application with a Tkinter interface, utilizing Laplace Pyramid and K-Nearest Neighbour - Achieved high accuracy in predictions by implementing algorithms like Fast Fourier Transform, attaining an R² of 0.9

SKILLS AND CERTIFICATIONS

Professional Certifications: AI Agents in LangGraph, AI Agentic Design Patterns with AutoGen, AWS Academy Cloud Foundations, Walmart USA: Advanced Software Engineering Programming Languages: Python, C++/C, Java, JavaScript, SQL, NoSQL, PHP, Solidity, HTML, CSS, SASS Frameworks & Libraries: Pandas, Numpy, Selenium, ReactJS/NextJS, SQLite, MongoDB, PostgreSQL, Scikit-learn Tools & Platforms: Cloudflare, AWS, Docker, Flask, Postman, Ganache, Git/GitHub, Rest APIs, CI/CD, JIRA, Azure Technical Skills: Competitive Programming, Data Structures & Algorithms, OOPs, Big Data, ETL Processes, Advance Database Organization, Operating Systems, Data Mining, Machine Learning, Relational Databases Soft Skills: Leadership, Communication, Problem-Solving, Teamwork, Adaptability, Analytical Thinking

TECHNICAL ACHIEVEMENTS

Winner of Internal Smart India Hackathon 2020

PUBLICATIONS

- Published a Research paper on “Construction Estimation Project” in IJSRD paper-link - Published a Research paper on “Pulse Detection Through Webcam” in IJRAR paper-link
--

PATENT

D Ein Blockchain-basiertes Medizinlogistiksystem – (Granted), German Patent File No - 20 2023 102 823.3, Date – 19 September 2023, patent-link - Designed a web application for tracking prescription drugs using Blockchain, enabling secure and transparent pharmaceutical supply chain management with improved traceability by 80% and significantly reduced instances of counterfeit drugs in pilot deployments
